INTRODUCTION

1. This handbook was produced as a resource for students and parents to explain the policies, rules, and regulations governing all students in Al Dhafra Private Schools, Al Ain. Parents must help school personnel to effectively communicate information from this handbook to students. Parents help by requiring students to be in school every day they are physically able to be in attendance, providing information such as correct addresses and phone numbers, attending scheduled conferences with school staff, sending the necessary absence or tardy notes, and learning about the school, its mission, its plan for improvement, and its activities. Parents are encouraged to meet with school staff; however, conferences with teachers should be scheduled in advance to avoid interruption of instructional time. Parents will find the school counselor of assistance to them and their children. The counselor may involve the parent, student, and teachers in conferences to help the student. Please take time to become familiar with the contents of this handbook. The information included is important and knowing it will make the school year easier for the students. If you have questions about information in this handbook, call your school principal's secretary. If further assistance is needed, the secretary will direct you to the appropriate Al Dhafra Private Schools staff. You may also visit Al Dhafra Private Schools website at <http://alain.dhafraschools.com>/or email the Principal with any inquiries at principal.al@dhafraschools.com.

School Campus

We are proud of our school and take great pride in keeping the buildings and grounds in quality condition. We do our best work in clean and orderly surroundings. Please help us by keeping our campus clean. Staff, students, monitors and parents are urged to immediately report any acts of vandalism.

Celebrations

The following are Al Dhafra Private schools approved celebrations: National Day and Culture Day. No other celebrations are allowed during the instructional day. Students who bring in treats for their birthday may obtain school approval two days prior to the event. In the case of approval for private celebrations, students can only bring single serving items to be shared during the break. Soda or fizzy drinks are not allowed. Students should not bring balloons or glass bottles to school. These items cannot be delivered to the classrooms as they are a

distraction to the learning environment.

Emergency Information

It is essential for the school to have parents' current home/cell telephone numbers, emergency telephone numbers, and current addresses to be notified in case of an accident or illness. Please immediately notify the office when the home address, home telephone number, or work information changes.

Parents' cooperation is important and highly appreciated.

Use of the School Phone

Students' use of the school telephone is limited to emergency situations.

Forgotten homework, books, lunch money and/or permission to stay after school are not considered emergencies. The school management requests that parents do not call the school to speak to their children. However, in an emergency, a message may be left and a school official will make sure it is delivered to the concerned child.

Parent Teacher Conferences

Our parent/teacher conferences are held twice during the school year and parents are encouraged to attend. These conferences present the opportunity for parents and teachers to discuss progress and set targets to further attainment.

Arrival and Tardiness

Students must arrive on the school campus before 7:40 a.m. when the first bell rings. The line-up bell rings at 7:40 a.m. Instruction begins promptly at 8:00 a.m. Students, who arrive at or after 8:00 am, must report to the administration supervisor's office to obtain a tardy slip before being admitted to class. Student tardiness is a serious disruption to the educational process. Tardiness interrupts the learning process and infringes on the educational rights of other students. Repeated tardiness will result in disciplinary action.

Supervision

School personnel do not provide supervision before 7:00 am. Prior to assembly, during breaks and after school instructional time students are to remain in the

playground. Students are not permitted to use the staircase in the reception area.

Dismissal / Early Dismissal

Students are dismissed at either 2:20 pm or 2:30 pm from their designated classrooms. However, students are dismissed at either 1:30 or 1:40 on Thursdays. Students who have not been picked up by 3:00 pm will be escorted to the office and signed in. A parent or guardian will need to sign before taking the student from the office.

When picking up your child for early dismissal, all parents and/or legal guardians must report to the front office. To ensure your child's safety, students will only be released to the person(s) listed on the student enrolment form provided by the parents and/or legal guardians. Pictured identification may be required each time a student is released early from class and the sign out sheet must be completed. Please do not send an older sibling into the school to pick up a student. We appreciate your cooperation in making our school the safest environment possible for students. No early dismissals will be allowed after 1:35 p.m.

Absences

Al Dhafr Private Schools Attendance Regulation Policy states that student's attendance is a shared responsibility between the students' parents and the school.

Excessive absenteeism for students who exceed twenty unapproved absences during the school year may result in retention. Therefore, it is imperative for students to be present every day in order to gain the greatest benefit from the educational opportunities being provided by the School.

If your child is absent from school, you will need to send a note to the school on the first day of his/her return to school explaining the absence. It is the responsibility of the family to contact the school to obtain appropriate makeup work within three school days directly following the absence. Students shall be allowed a minimum of three (3) days to complete missed work.

If you wish to receive approval for your child's absence, then a letter must be submitted prior to the absence period. The letter should state the reason and length of absence.

Illness while at school

If the student should become ill or is injured during school hours, s/he must ask the teacher for a pass to go to the clinic. A student will only be allowed to leave the school once parental permission has been obtained. Parents are requested to report all communicable diseases to the school as health and care of all our students is the school's priority.

Medication

In the case of a student requiring special medical attention for a temporary or permanent time span, it is the parents' responsibility to inform the school. The school nurse will then supervise prescribed medical treatment and the administration of medication.

Students' Safety Policy

The school recognizes its responsibility to ensure the safety of the students and makes every reasonable effort to provide students with a safe learning environment. Student safety is a shared responsibility of the school board, its employees, parents and students. Students should learn to behave in ways that show respect for the safety and well-being of both themselves and others. Meanwhile, the school is responsible for the effectiveness of its policy and for the provision required to ensure safe conditions.

Several measures are taken to ensure safety as follows:

- The presence of supervisors in all the corridors of the building and installation of cameras inside the classes and the corridors is to monitor the safety of students at all times. All areas of the school premises are monitored by supervisors and teachers at all times.
- Staff members are to ensure that all operations are performed with the utmost regard for safety and health.
- Promote a safe and conducive learning environment by ensuring that all equipment, furniture and facilities used by the students are safe.
- Students are to be trained how to deal with emergency situations such as the fire drill.

- Students should be advised to walk cautiously in school corridors and in the playground. They must refrain from running to avoid accidents.
- Physical conflicts of any kind are strictly forbidden, either by school staff or other students. In case of any such incident, the teacher should call the supervisor who will accompany the child to the school nurse. The school nurse is responsible for reporting to the parents and to decide whether the child needs only first aid or must be taken to the hospital for follow up. Only the school bus/another car suggested by the management should be used to take the student to the hospital.
- Classroom management is primarily the responsibility of the teacher, and he/she must make sure that all the students are out of the classroom during recess time and after school hours.
- Staff should not carry or use anything that could harm students such as hot drinks or sharp objects inside the classrooms/corridors or while supervising the students.
- The presence of any visitor in classes or corridors is forbidden. If the need arises for any visitor to be there, they should be accompanied by a school official.
- Workers who are present in school should always be under the management of a supervisor to make sure that they don't mingle with students.
- Students should not be allowed to leave the school alone and must be accompanied by either a parent or guardian. They can leave with their driver if the parent has informed the school.
- Staff or supervisors are not allowed to transport any student in their private cars, whether in the morning or after dismissal time for their own safety.

Food Policy

As a school, we have always prided ourselves in providing the best education to your children, within available resources, whilst attending our school. We now wish to extend this ethos by promoting healthy eating patterns to our children at school, by taking a more pro-active approach to improving the health and wellbeing of children, while attending class.

In the past, as part of the curriculum and to improve the well being of our children, we have incorporated:

- Healthy eating days
- Provision of water containers for children

We are now taking the work, already done on food in our school, a stage further by introducing a Healthy Eating Policy. This policy will cover the following:

- School food
- Non-school lunch packs
- Healthy eating, as part of the curriculum
- Extra curriculum activities, such as cookery clubs, etc

Our belief is that a balanced healthy, nutritious diet is important for the development of a child's physical state, as well as for their intellectual abilities. Feeding the body with the proper nutrients helps fuel the mind to be more receptive to learning new skills, hence **Feed the Body, Fuel the Mind**.

The school encourages the students to maintain a healthy diet through a number of ways. For instance, fizzy drinks and fried chips are prohibited on school premises and are not sold at the school's canteen. Instead, the canteen offers yoghurt and canned juice as a substitute to fizzy drinks. Appropriate food safety precautions are taken when food is prepared or stored. These vary depending on the food on offer and include: ensuring that adequate storage and washing facilities are available; that food handlers undergo appropriate food hygiene training; and that suitable equipment and protective clothing are available. Any food safety hazards are identified and controlled. We consult our local Environmental Health Department about legal requirements.

A "Healthy Lunchbox" suggestion flyer is given to kindergarten and primary students every year, which contains a list of tips for healthy meals. In addition to that, the school also prohibits glass bottles (juice/soft drinks) for safety reasons.

The school does not encourage the regular eating of sweets or other foods

high in sugar or fat, especially as a reward for good behaviour or academic or other achievements. Other methods of positive reinforcement are used in school.

Classroom Rules

The classroom rules apply to all students at all times.

- Be in class on time with the correct books and equipment.
- Ask for permission before leaving your seat.
- Don't eat or drink inside the classroom.
- Raise your hand to ask for permission to speak.
- Respect your classmates. Bullying is unacceptable.
- Listen to your teachers. Respect them and follow instructions.

EXTRA-CURRICULAR ACTIVITIES

Al Dhafra Private Schools aspires to have a wide range of extra-curricular activities offered to the children in the school.

The extra-curricular 'Clubs' are created bearing in mind the aims and philosophy of the school. In particular we are seeking:

- To develop the individual to his or her full potential
- To develop social awareness, group responsibility and empathy
- To extend individual talents and interests

As a school we see many benefits in providing a program of extra-curricular activities:

- Children of various age groups join together and share ideas, skills and experiences. They meet with children who are not necessarily in their peer group and so widen their social horizons. Children are able to build relationships with staff, both teaching and non-teaching, who they do not normally meet during the school day
- Staff, both teaching and non-teaching, have an opportunity to meet and work with children from a wide range of age groups
- Staff and children can build upon their interests, expertise and experiences by sharing these with others. At the same time other members of Al Dhafra Private Schools develop new interests and try out new skills and experiences
- There are opportunities for all members of the school community to be together – Clubs involve teaching and non-teaching staff, parent and other adult helpers and children

- Children who may not enjoy academic success are able to achieve success in other areas
- Many opportunities are given for developing social skills

Most extra-curricular activities, in the form of School Clubs, take place after school or on Saturdays.

Children are asked to choose the club that they would like to attend in order of preference. Parents are asked to return a consent form for the child to attend a School Club.

School clubs may have to be cancelled occasionally due to illness or for members of staff to attend meetings or a course. Notice of closure is given in the form of a memo to parents informing parents that the club is cancelled or by telephone if an emergency arises.

Student Council

The Student Council gives students the opportunity to have a voice in the running of the school and also the chance to gain leadership experience. Students from grades 4 – 12 can nominate themselves for the role of Student Councilor. There will be elections where students will be given the opportunity to choose the Student Councilors. Participation in the Student Council is a privilege that brings with it great responsibility. It is the responsibility of students to ensure that their academic achievement does not suffer as a result of participation in the Student Council.

Head Boy and Girl

The Head Boy and Head Girl position will only be available to Grade 12 students and will be nominated and elected by teachers and the administration. The Head Boy and Head Girl will be ambassadors for the school at events. They will speak on behalf of the school body at events such as the Graduation Ceremony. The Head Boy and Head Girl should lead by example. They must act in keeping with school rules and regulations. This includes attendance, punctuality, participation in school events and maintaining good grades. They will act as the Chairperson of the Student Council. They are responsible for communicating the students' views to the school

administration.
